INTER-OFFICE CORRESPONDENCE

To: Mr. A. Holtzman Date: May 19, 1977

From: R. B. Seligman

Subject: Dr. D. M. Aviado - Research Proposal

I would like to add a few comments to those which Dr. Wakeham made concerning the subject proposal. In general, the project's descriptive material was much too brief; - therefore, definitive comments are difficult to make. I would like to mention, however, that the form of nicotine (reference to [a]) could be extremely important; i.e., is it free nicotine or nicotine salt, etc.
